A Word from the Host Sabine Duchaczek

Welcome to the 42nd edition of the Capital Market Conferences Family Office Day which is also our third specialist conference on the topic of impact investing. I want to thank all partners, companies, speakers and attendees for supporting this event even in these challenging times.

The aim of this series of events is to inform family offices, foundations, HNWIs and institutional investors independently, comprehensively and with a high level about the topic of impact investing and to offer a platform in Vienna and online where investors can learn from international pioneers and experts.

With these conferences we want to underline the importance of the preservation of the global social- and ecosystem and to inspire more investors for the idea of impact investing, so that future generations will also benefit sustainably. Due to the great feedback from investors and companies, we organize the Conferences Family Office IMPACT Day twice a year.

I am looking forward to exciting company presentations and discussion panels and to your participation online!

Gold Partner: Jäderberg & Cie.-Group

The Jäderberg & Cie.-Group (“JC”) is an entrepreneurial impact investor. The investment portfolio consists purely of unique projects with disruptive, deep impact of massive sustainability and extraordinary long-term profitability. Furthermore, JC only engages with projects where they can add substantial value, be it operationally responsible, or simply as an active lead investor and impact guardian. Areas of investment are, so far, Regenerative Agriculture/Forestry (with a focus on medicinal plants), Food Distribution, Ocean Health, Circular Economy (with a focus on recycling of e-waste). Read more: www.jcii.earth

The flagship project since 2010 is „JC Sandalwood“. JC cultivates over 275,000 sandalwood trees on 575 hectares of reforested mixed forests in the tropical north of Australia. 60% of this is owned by their co-investors. From 2028 onwards, gross harvest revenues of over one billion euros are expected. The essential sandalwood oil of this nearly extinct tree species is used in human and veterinary medicine, natural remedies, aromatherapy, food flavoring, and as a fragrance carrier. Among the handful of neighboring investors in this only commercially viable, fully sustainable source are Abu Dhabi IC, Harvard Endowment, and Church of England. Read more: www.jcsandalwood-pro.com

Regarding all projects, JC is looking for further co-investors who intend to ensure sustainability in addition to entrepreneurial returns. Investment structures can be customized. JC is proud member of international impact organizations and networks like Toniic, Bundesinitiative Impact Investing, TTI, Global Impact Alliance - and active in several working groups. One overlapping topic JC pursues is to create and integrate Carbon, Biodiversity, and Social credits in one single token. Not least, JC is an active advocate for collaboration and for protection against “Impact Washing”. Read more: www.jaederberg.de & www.impactinvestings.de

SilverStreet Capital LLP

SilverStreet Capital LLP (“SilverStreet”) was founded in 2007 and is an experienced UK based impact investor in the African agricultural sector. Its funds are all classified as Article 9 (“dark green”) under the new EU Sustainable Finance Disclosure Regulations (“SFDR”). The company’s objective is to seek attractive returns for investors whilst achieving a substantial positive social, environmental and climate impact.

By focusing investment on the requirements of smallholder farmers, SilverStreet Capital LLP’s investments support Sub-Saharan Africa’s most vital and numerous food producers, to help increase production and incomes where it matters most. This is achieved by identifying opportunities where new investment can unlock incomplete value chains. By investing to develop, complete or “fix” a value chain, SilverStreet Capital LLP creates the opportunity for other players in the value chain to benefit, in particular smallholder farmers.
