

INVITATION

VIENNA IMPACT INVESTMENT FORUM

22 & 23 JUNE 2022

HOTEL IMPERIAL
KÄRNTNER RING 16, 1015 WIEN

www.familyoffice.at

Introduction from the Host Sabine Duchaczek

Welcome to our Fourth Vienna Impact Investment Forum and thanks to all partners, companies, speakers and listeners for supporting this event even in these most challenging times.

The main objective of this expert forum is to inform family offices and institutional investors independently, comprehensively and with the highest standard about the topic of impact investing and to present sustainable investment opportunities. We want to emphasize the importance of the preservation of the global social- and ecosystem and inspire more investors to the idea of impact investing, so that future generations will benefit sustainably.

Since 2015 we have hosted 43 conferences and 45 investor lunch presentations for family offices and institutional investors in the DACH region and I am very pleased that impact investing has become a major topic next to our real estate and capital market conferences. And we are only at the beginning of a trend, because a lot still needs to be done, especially regarding education in ESG and impact investing.

I am looking forward to stimulating company presentations and discussion panels and hope to see you at the Hotel Imperial in Vienna!

Best regards,

Sabine Duchaczek

Platin Partner: Africa GreenTec AG

Africa GreenTec AG is a German social enterprise which empowers people in the Global South to achieve more self-determination and growth through sustainable energy solutions. With its sustainable system solution Africa GreenTec AG builds ImpactSites, in which entire village communities in rural areas are equipped and empowered with electricity and modern technologies. The company has rethought electricity and developed an intelligent system that can withstand the harsh conditions of off-grid regions in Africa and even exceed modern European standards.

Africa GreenTec AG relies on an extensive portfolio of products and service solutions such as state-of-the-art solar energy, smart meter technology, cooling systems, water treatment and internet access. The company's systems are operated through subsidiaries or sold to project partners. As a company in the field of social entrepreneurship, Africa GreenTec AG builds on the three pillars of sustainability – social, ecological and economic. This means that it is a for profit company, but the positive impact of its work is clearly in the spotlight.

Current investment opportunities include a direct equity investment into the Africa GreenTec AG (Series B of holding company) as well as equity and debt investments into a Luxembourg-based impact investment fund.

Gold Partner: HQ Capital

HQ Capital is a global private equity specialist, identifying and selecting local private equity opportunities in North America, Europe and Asia. Since 1989, the firm has deployed \$ 9.7 billion of capital into global and regionally focused private equity on behalf of institutions and private clients. As of December 31, 2021, HQ Capital has invested in 750 funds and direct companies alongside 288 managers across North America, Europe and Asia. The team is comprised more than 90 employees with local investment teams based in New York, Bad Homburg, and Hong Kong.

HQ Capital began incorporating ESG criteria firm-wide and into our global investment process over a decade ago, after becoming an early signatory of the U.N. Principles of Responsible Investment (PRI) in 2011. Additionally, HQ Capital is committed to the initiatives of the U.N. Environment Programme Finance Initiative (UNEP FI), the U.N. Global Compact (UN Global Compact), the Task Force on Climate-Related Financial Disclosures (TCFD) and to Level 20, a not-for-profit organization dedicated to improving gender diversity in European private equity.

In 2013, HQ Capital established an internal ESG Team headed by Britta Lindhorst, Head of European Investments, Global Head of ESG/Impact, and supported by various team members, including HQ Capital's Head of Legal and Compliance. Over the years, the team has developed a thorough ESG strategy which is an integral part of our investment process.

In 2021, we introduced our dedicated impact strategy as a consequent enhancement of our longstanding responsible investing experience. Our impact portfolios would consist of private equity managers with demonstrable impact experience and impact investment strategies that are suitable to create risk-adjusted financial returns comparable to traditional private equity market returns. The key focus is on four megatrends of responsible investing: Green economy, Blue economy, Healthcare, and Education. The strategy is aligned with the U.N. Sustainable Development Goals ("SDGs") and ESG criteria and compliant with the Article 9 under the Sustainable Financial Disclosure Regulation ("SFDR") of the EU.

Blue Earth Capital AG

Blue Earth Capital AG is a global impact investment manager and advisory firm founded in 2015 to establish and manage investment strategies for an international clientele of professional investors seeking investment solutions that offer risk-adjusted financial returns, while also helping to address pressing social and/or environmental challenges. Blue Earth Capital AG invests in private equity and debt opportunities where social and environmental impact goes hand-in-hand with market-rate returns. The firm believes that social- and climate-focused enterprises with both a sound business model and the ability to attract institutional capital are best positioned to generate sustainable and scalable impact.

Initiated by the founders of Partners Group and backed by the Ursimone Wietlisbach Foundation, Blue Earth Capital AG has been incubated and built-up with the support of Partners Group, leveraging its experience as a leading global private markets firm. Blue Earth Capital AG is fully owned by Blue Earth Foundation, a Swiss not-for-profit organization which protects the impact mission of Blue Earth Capital AG and re-invests 100% of the firm's operating profits in support of its philanthropic activities. Oikocredit

In 1975 Oikocredit's founders saw commercial banks financing wars and unjust regimes. They wanted to use their money differently – they wanted to invest in people, to improve their lives. So, they created Oikocredit as a worldwide cooperative and started lending to organisations that support low-income people in the Global South.

More than four decades later, social impact is still at the heart of Oikocredit's work. With over a billion adults without adequate access to formal financial services, smallholder farmers vulnerable to the effects of climate change and nearly 800 million people without access to reliable energy, also the need of Oikocredit's work is still there.

Oikocredit is thus continuing to support partner organisations in Africa, Asia and Latin America by providing loans and equity investments. Through its network of local staff Oikocredit is furthermore able to offer solutions that go beyond financing like capacity building.

These partners, working in the sectors of financial inclusion, agriculture and renewable energy, in turn empower low-income people by providing financial services, jobs, technical assistance, access to clean and affordable energy, and more.

None of this would be possible without the loyal support of Oikocredit's currently 59,000 members and investors. They – like Oikocredit's founders – look at the world's problems and respond with compassion, solidarity, and the drive to contribute towards a brighter future for everyone.

Valiant Bank AG

Valiant Bank AG simplifies the financial lives of retail clients and SMEs in Switzerland more than anyone else and with a focused ESG approach. Its strengths are its innovativeness, its mortgage expertise, its close ties with its clients and its strategy execution. Valiant Bank AG is continuing to broaden and digitalise its services, expand its footprint, enhance efficiency and boost earnings.

Valiant Bank AG is the only listed financial services provider focusing solely on the attractive Swiss market with a 100% free float. The bank's earnings are solid and its shareholders have received consistently high and increasing dividends for 23 years.

Jäderberg & Cie.-Group

The Jäderberg & Cie.-Group (“JC”) is an entrepreneurial impact investor. The investment portfolio consists purely of unique projects with disruptive, deep impact of massive sustainability and extraordinary long-term profitability. Furthermore, JC only engages with projects where they can add substantial value, be it operationally responsible, or simply as an active lead investor and impact guardian. Areas of investment are, so far, Regenerative Agriculture/Forestry (with a focus on medicinal plants), Food Distribution, Ocean Health, Circular Economy (with a focus on recycling of e-waste). Read more: www.jcii.earth

The flagship project since 2010 is „JC Sandalwood“. JC cultivates over 275,000 sandalwood trees on 575 hectares of reforested mixed forests in the tropical north of Australia. 60% of this is owned by their co-investors. From 2028 onwards, gross harvest revenues of over one billion euros are expected. The essential sandalwood oil of this nearly extinct tree species is used in human and veterinary medicine, natural remedies, aromatherapy, food flavoring, and as a fragrance carrier. Among the handful of neighboring investors in this only commercially viable, fully sustainable source are Abu Dhabi IC, Harvard Endowment, and Church of England. Read more: www.jcsandalwood-pro.com

Regarding all projects, JC is looking for further co-investors who intend to ensure sustainability in addition to entrepreneurial returns. Investment structures can be customized. JC is proud member of international impact organizations and networks like Toniic, Bundesinitiative Impact Investing, TTI, Global Impact Alliance - and active in several working groups. One overlapping topic JC pursues is to create and integrate Carbon, Biodiversity, and Social credits in one single token. Not least, JC is an active advocate for collaboration and for protection against “Impact Washing”. Read more: www.jaederberg.de & www.impactinvestings.de

Cannovum AG

Cannovum AG is the first German fully-licensed cannabis company listed on the stock exchange. Cannovum AG is an importer, wholesaler and manufacturer of high-quality medical cannabis. Providing patients in Germany with cannabis-based therapies is the company's core business. In addition to the medical brand, Cannovum AG is building a recreational brand. Cannovum AG is in the pole position for the upcoming legalization of recreational cannabis use in Germany.

Since founding the company in 2019, Cannovum AG has successfully established itself as a key player in the German medical cannabis market. In spring 2021, Cannovum AG reached a big milestone for the German cannabis industry by becoming the first German cannabis company listed on the stock exchange. Following the listing, Cannovum AG started its European expansion by founding its first subsidiary in Portugal.

Cannovum AG is bringing sustainability to the German cannabis market with its own range of unique products. Cannovum cannabis is sunlight-ripened and free of chemical pesticides. This sustainable approach to cultivation allows the plants to grow as natural as possible.

European Investment Fund

The European Investment Fund is a specialist provider of risk finance to benefit small and medium-sized enterprises (SME) across Europe. It is part of the EIB Group. Its shareholders are the European Investment Bank (EIB), the European Union, represented by the European Commission, and a wide range of public and private banks and financial institutions.

The European Investment Fund carries out its activities using either its own resources or those provided by the European Investment Bank, the European Commission, by EU Member States or other third parties. By developing and offering targeted financial products to its intermediaries, such as banks, guarantee and leasing companies, micro-credit providers and private equity funds, the European Investment Fund enhances SMEs access to finance.

By taking SME risk, the European Investment Fund pursues two main statutory objectives:

- Fostering EU objectives notably in the field of entrepreneurship, growth, innovation, research and development, Climate investments, and regional development;
- Generating an appropriate return for its shareholders through a commercial pricing policy and a balance of fee and risk-based income;

More than 1 million SMEs have benefited from enhanced access to finance through financial instruments managed by the European Investment Fund. An interactive map that identifies all the SMEs that have received EU-support from the European Investment Fund can be found on www.eif.org

SFS RE GmbH

SFS RE GmbH is a fund backed investor based in Frankfurt, Germany. Its Luxembourg umbrella fund structure allows high flexibility in creating balanced special assets for institutional investors and family offices in the DACH region and Liechtenstein. The SFS RE fund family focuses on the core themes of ecologically sustainable real estate and green impact technology. In doing so, it is mandatory for SFS RE GmbH and its investment funds to act upon Article 8 of the Sustainable Finance and Disclosure Regulations (SFDR). Currently, two new sub-funds are in the funding process. The SFS RE Mezzanine Opportunity Fonds I is focusing on sustainable real estate development projects in the DACH region. The SFS RE Green Tech Opportunity Fonds I invests in controlled environments and circular economy opportunities such as vertical farming, cultivation of microalgae or plastic to oil technologies known as pyrolysis processes.

The SFS RE team consists of personalities with a comprehensive background, many years of experience and expertise in their core sectors. This combines in-depth professional know-how in the real estate sector with a focus on mezzanine loans, corporate finance and green impact investments as well as fund and Article 8 SFDR compliant asset management in the respective asset classes.

eCAPITAL ENTREPRENEURIAL PARTNERS AG

Founded in 1999, eCAPITAL ENTREPRENEURIAL PARTNERS AG is an entrepreneur-led venture capital investor focusing on early- and growth-stage deep-tech companies with a positive impact on society. The company is based in Germany and invests with its own funds with a total volume of over EUR 280 million in the areas of Sustainability, Enterprise Software, Cybersecurity, IoT and New Materials. In addition to financial resources, eCAPITAL offers its portfolio companies strategic support and access to an international network of entrepreneurs, scientists, investors and founders and was lead investor in various deep-tech companies such as sonnen, Novaled or Jedox, which were sold very successfully to international strategists or investors.

eCAPITAL firmly believes that major problems of our time as climate change, cyberattacks or lacking digitalization can be solved with technology based on science and engineering – deep tech. With this investment approach, the company aims to contribute to solutions for society while simultaneously generating above-average returns for its fund investors. Examples of the direct contribution to the reduction of CO₂ emissions of eCAPITAL's portfolio companies are Creapaper (95% less CO₂ emissions than regular paper), Heliatek (65% – 90% less CO₂ emissions than other PV technologies) and Saperatec (65% – 88% less CO₂ emissions than the regular production of aluminum and polyethylene foils and PET).

MRM Family (Europe and Asia)

Maria Milford and her teams have been involved in building multi manager portfolios for almost 30 years. They have been travelling the world to unearth interesting managers and promising investment ideas. Before founding her own companies with worldwide reach, she worked in the financial industry for almost 15 years. In the past years, Maria retired from all positions not related to her family offices in Asia and Europe.

MRM Family (Vienna and Macau) is a Single-Family Office for Maria's greater family. Run in the same professional spirit as her former asset management companies – including several associated research and services companies – the assets are allocated and managed in a way that complies with the highest international standards in the financial industry.

The family members agreed to manage the assets following a strict sustainability rule book with a **special portfolio of impact investments**. This includes renewable energy projects in Africa (e.g. “Clean Cooking” that not only saves the environment, but also helps women and children to stay safe and unharmed), waste projects in Asia or specific start-ups in Europe.

The aim of MRM Family is not “just” to invest, but also to enter the companies/projects and be a valuable partner providing necessary services (via the own associated research and services companies). In regard to start-ups and young companies there is no aim to find the next unicorn and a quick exit, but to build robust companies where all stakeholders find a good place to work with.

Areas of Assets (all world-wide): **Infrastructure Companies/Projects** (Solar and Wind, Geothermal Energy, Hydrogen, Water, Waste); **Start-Ups/Young Companies** (sustainable/impact/women); Medical products and specific pharmaceutical developments; **Blockchain** (no focus on Cryptocurrencies); **Digitalization; Real Estate;** MRM Family introduces its new set-up – and maybe there are like-minded family offices who would like to share ideas and cooperate to make an impact in the world.

Planet Ocean Fund

Investment-strategy: The Planet Ocean Fund focuses on early-stage venture capital. Its team is convinced that world's oceans, which cover more than 70% of our planet, provide plenty of solutions for these challenges.
